

### REMARKS

Claims 1-8 and 10 are pending in this application. Claims 1, 5, 7 and 8 have been amended. Claim 6 has been canceled without prejudice. It is respectfully submitted that no new matter has been added.

#### Claim Rejections 35 USC § 102:

Reconsideration is respectfully requested of the rejections of claims 1-7 and 10 under 35 U.S.C. § 102(e) as being anticipated by U.S. Patent No. 6,850,298 to Fujimori et al. ("Fujimori").

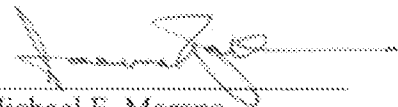

Applicant respectfully submits that Fujimori does not disclose or suggest a color filter panel for a liquid crystal display wherein a color filter includes first and second portions with different thickness, the first portion has a larger thickness and the second portion has a smaller thickness, and the second portion is located along a line that a pixel area is defined by, and the first portion is located within an area surrounded by the second portion, as recited in amended claim 1. See e.g., Figs. 1 and 2 of the present application. In contrast, Fujimori is completely silent regarding the above claimed features.

Therefore, claim 1 is not anticipated by Fujimori. In addition, for at least the reason that claims 2-5, 7 and 10 depend from claim 1, and claims 2-5, 7 and 10 are also not anticipated by the cited reference. Claim 6 has been canceled.

Accordingly, Applicant respectfully requests that the Examiner withdraw the rejection of claims 1-7 and 10 under 35 U.S.C. § 102(e).

An early and favorable reconsideration is earnestly solicited. If the Examiner has any further questions or comments, the Examiner may telephone Applicant's Attorney to reach a prompt disposition of this application.

Respectfully submitted,
